Week of: August 8th

CLASSROOM NEWS

Math: This week, students are taking the readiness assessment for enVision. This will give us some valuable data on where your kids are in math. We also have some fun activities along the way!

Reading: We are starting out the year with the anchor text, "Flying Solo." This story is about students who run the classroom because the teacher never shows up! Our main focus will be on questioning and determining character, settings, and events. We are also starting a read aloud called, "The Wild Robot."

Writing: Students will begin the year with a research writing piece. It will be on a topic of their choice. This piece will give us a good idea of their writing levels.

Science: This week, we are going to look at plant guts! We will be exploring parts of different plants and making observations.

Since it is the first week of school, we will be doing a lot of get-to-know me activities and bonding as a class!
